About Us

Founded in 1999, Automation NTH is an award-winning company with a mission to make manufacturers globally competitive through world-class automation systems.

Automation NTH [architects automation solutions](#), delivers high performing [turnkey custom automation equipment](#), and drives [continuous improvement](#) after equipment is installed. Our partnership with manufacturers through their full automation lifecycle generates superior returns on investment in automation.

Automation NTH is headquartered in Nashville, Tennessee with an office in San Diego, California.

Our Services

Automation^{nth} helps you along every step of your automation journey.

[Our Services](#)

[Industry Focus](#)

Automation Consulting

We help manufacturers develop a winning automation plan and manage risks with our industrial automation consulting services.

Custom Automation

Our custom automation systems improve productivity, quality, and safety and are designed to be easy to operate and maintain.

Automation Optimization

We help manufacturers get the most from their equipment through data-driven insights, training, and on-site support.

What Makes Us Unique

Core Values

-  Curious

We succeed by being continuous learners, innovative, and detail-oriented.

-  Collaborative

We work as one team with each other, our customers, and key partners.

-  Customer-Centric

We care deeply for our customers' success, follow through on commitments, and proactively find ways to make them more competitive.

-  Committed

We hold ourselves to high standards and are dedicated to providing excellence in automation.

-  Can-Do

We possess a "game on" mentality and embrace new challenges.

-  Caring

We preserve a family environment by respecting and supporting every NTH employee.

Awards & Certifications

Community Outreach

Automation^{nth} sponsors Nashville area elementary, middle, and high school labs for STEM Scouts. STEM (Science, Technology, Engineering, & Math) education is vital to train the future engineers and technicians needed to lead manufacturers. STEM Scouts provides a stimulating and fun environment for students from elementary to high school to get excited about technology and engineering.

The Guide to Successful Automated Manufacturing
